

Nick Cappelletti  
Private Piano and Guitar

I been performing and composing my own music since 1996, playing hundreds of venues as well as writing numerous original compositions in all genres. In 2002, I graduated from California Lutheran University with a Bachelors Degree in Music.

In 2006 I wrote and produced the official release “Lux” and, in 2007, Ghost Note “Frozen Mirrors”. Both are currently on an independent label.

I have a broad range of musical training in percussion, vocals, piano, guitar, orchestra and songwriting as well as

experience playing in school symphonys and steel drum ensembles. I feel that this gives me a very diverse pallet to provide the right sound for the right part. I have recorded in world class studios including Westlake and NRG in Los Angeles and I have recorded and worked with prestigious musicians, producers and engineers.

Recently, I finished working on 2 film scores as well has my debut solo release which includes marvelous performances by three of my students.
